This stunning villa comes to life under the creative vision of Abalos architects. Inspired by the principles of cubism, its architecture captivates with its clean lines and precise angles, commanding attention at every turn. The main house spans across two floors, with the upper level featuring two remarkable bedrooms adorned with stone-accented bathrooms. A bespoke spiral staircase serves as the centerpiece, seamlessly connecting the levels, while the ground floor accommodates the remaining bedrooms, a fully equipped kitchen and a spacious living area. The kitchen effortlessly merges with the outdoors, thanks to expansive glass sliding windows that blur the boundaries between indoor and outdoor living. A notable feature of this property is the ability of all windows to fully open, inviting the outside in—an element that sets it apart. The ground floor grants direct access to the garden...
